

BIO Chosen Undead

Chosen Undead: The rising Metalcore Band from near Frankfurt

From the small and tranquil town of Hainburg near Frankfurt, five young musicians rise from the depths: the band "Chosen Undead". Founded in 2024, this passionate group decided to revive the sound of the early metalcore years and refine it with modern elements. Thus, they form a bulwark of fast riffs and breakdowns, calm melodic pieces, and rock-infused songs.

United in the belief that heavy music has splintered into many subgenres, the quintet proves that it can be done differently. Each member of this extraordinary formation is inspired by a different genre of heavy music. Whether it's melodic death, thrash, hard rock, or metalcore, CHOSEN UNDEAD brings all these styles under the mantle of metalcore. Influenced by this diversity, this vibrant band now rises to take the scene by storm.

The band's lyrical tone is shaped by the dark and emotional tales that life, humanity, and the past can bring. They often show the bad to illustrate an alternative or better way. However, you can also find lyrics that uplift and cheer you up. Thus, classic themes like friendship, love, and hate are given a whole new perspective and often resonate with the spirit of the times.

The band hailing from Hainstadt, near Frankfurt, consists of the following members: Julien Triebel (vocals), Yanni Georg (lead guitar/vocals), Martin Kronau (rhythm guitar), Marco Welsch (bass), Louis Götz (drums).

The first single from their upcoming studio album will be released in 2025. Before this, the band has gained experience through live performances, allowing them to develop and refine their sound. The band stands out with energetic and powerful performances that can captivate any fan of heavy music. In the coming year, Chosen Undead plans to go on tour.
